Theme: Exciting Egypt!

Term: Autumn 1

Maths

Focus on your target times tables. By the end of Year 2, all children are expected to know all of their multiplication and division facts including the 2, 5 and 10 times tables.

We will be having practice tests to see if you can recall them.

Show at least **three** examples of where you have practised your times tables during the Autumn term.

English

Reading is very important in Year 2. It is important to take part in daily reading. Remember to make a comment in your diary! These will be checked on a **daily** basis.

Work on your fluency. How many words can you read in a minute? Expected for a Year 2 child is between 70-120 words a minute.

Work on your reading and comprehension skills.

KLP/Research

Research 10 facts about Egypt.

Create a poster about the location of Egypt. Remember to include information about the surrounding countries and oceans.

Art/Creative

Design and create your own Egyptian necklace.

Can you find out what they were made from?

Create an Egyptian scene - be as creative as you can. You can use paint, collage, pastels, or other printing techniques. You can even place a picture of yourself in Egypt.

Record **three** examples of when you use Maths in everyday life.

These can be recorded in different ways, for example, using photos or written sentences about how you used Maths.

(For example, using money at the shops or telling the time for different events in the day).

Write a short story about an 'exciting trip to Egypt'. Where will you go? What will you see? Who will you meet? Who will you go with? How will you get there?

Imagine you are here. Describe this picture using adjectives and your 5 senses.

Research Egyptian writing 'hieroglyphics'. Can you write your name?

Can you write key facts about Tutankhamun?

Draw a portrait of Tutankhamun.
